Objective

To work in a place solving interesting problems and making a positive impact on the organization and my career.

Education

St Joseph Engineering College, Mangalore 2022 – 2026
BE in Computer Science and Business System
GPA : 9.05/10

Ambika Padavi Poorva Vidyalaya, Puttur 2020 – 2022
2nd PUC, DPUE
Percentage : 85/100

Blessed Kuriakose English Medium School, Guthigar 2019 – 2020
SSLC, KSEEB
Percentage : 87.52/100

Projects

Blood Bank Management: [github.com/BloodBank](https://github.com/VivekM/BloodBank) 

- A web-based platform built with HTML, CSS, and PHP to efficiently manage blood donations, donor records, and blood stock. It features user registration, blood availability tracking, and secure database management with MySQL for real-time updates.
- Tools Used: HTML, CSS, PHP, MySQL

Daily News Application: [github.com/NewsApp](https://github.com/VivekM/NewsApp) 

- A React-based news application that fetches real-time news using an API. It features category-wise filtering, dynamic routing with React Router, and a top-loading progress bar for better user experience. Built with React, React Router, and state management using hooks.
- Tools Used: Bootstrap, Tailwind, React, APIs

Plant Leaf Disease Detection: 2025

- A machine learning project aimed at identifying diseases in plant leaves using image classification. Utilized Convolutional Neural Networks (CNNs) with TensorFlow and Keras for training and prediction.
- Tools Used: Python, TensorFlow, Keras, Jupyter Notebook, OpenCV, Matplotlib

PEM Fuel Cell Simulation with GDL Parameter Analysis: 2024

- Simulated a Proton Exchange Membrane Fuel Cell (PEMFC) to analyze the effects of Gas Diffusion Layer (GDL) thickness and porosity on fuel cell performance and efficiency.
- Tools Used: ANSYS Fluent

Technologies

Languages: Java, C, C#, SQL, JavaScript, HTML, CSS, R, Python

IDEs: Visual Studio Code, IntelliJ IDEA, NetBeans, IDLE, PyCharm

Framework/Library: React, Bootstrap, Tailwind, OpenCV, Numpy, Pandas

Operating System: Windows, Linux

Courses:

Academic Courses: DSA, Operating System, Computer Networks and Systems, Business Strategy, Financial Management, Marketing Strategy

Online Courses: Full Stack Development using MERN(Udemy), UI/UX Design(Infosys SpringBoard)
